OLH Inc. is an Atlanta-based firm founded in 1993 to offer comprehensive, specialized Project, Program, and Construction Management services. We are a women-owned firm, recognized for our ability to consistently deliver quality service on projects that are completed on schedule and within budget.

OLH Inc. helps clients track and measure performance, integrate and maintain control of cost and schedule, accurately predict the outcomes of the projects and overall program, and communicate project and program status to all project participants in a timely, effective manner. We do this with a staff that is well versed in the latest Project Management software, technology, and methods.

OLH Inc. *Project and Program Controls* services focus on helping clients in the engineering, construction, architecture, public works, and utilities industries who wish to increase their efficiency and success by implementing project control concepts and products in the management of their projects. OLH Inc. Project Controls is about assisting project personnel in making their jobs as easy as possible. We want to help you by providing critical and timely information that will enable you to make the best possible decisions on both a project and company-wide basis.

OLH Inc. *Federal and Nuclear Services* offers federal clients administrative and professional services to our Federal and Commercial Nuclear customers. These services include any of our core project controls, project management, construction management, and technology services as well as Subject Matter Expert (SME) personnel in the areas of Nuclear and Criticality Safety, Nuclear Safety Analysis, Consolidated Hazards Analysis Process (CHAP), and Nuclear Safety and Authorization Basis Documentation.

OLH Inc. *Construction Services* provides construction engineering and inspection, construction management, and owner's representative services on transportation, infrastructure, and building construction projects using certified inspection and construction management staff. Our Construction Management staff are well-trained, certified, and experienced professionals and always apply effective management techniques to the planning, design, and construction of a project, from inception to completion, for the purpose of controlling time, cost and quality. We support Owners, Contractors, Construction Management firms, and Architects/Engineers on various project.

OLH Inc. *Technology Group* provides solutions and assistance with integrating your various in-house software applications with off-the-shelf project management software or in developing specialized software that meets your project, program, or corporate needs. We can provide qualified staff augmentation to assist in software development as well as Management Information Systems specialist to support with your technical needs.

OLH Inc. offers *Design and Drafting Services* to either complement your design staff, assist with overflow drafting needs, or develop plans and drawings, right-of-way exhibits, and construction documents utilizing Microstation and AutoCAD.

OLH Inc. is set apart from the competition through the way we integrate and personalize our services to each client's needs. The goal of OLH Inc. is to provide engaged management of each client's project from the seed of a development idea through the entire design and construction process.

OLH Inc. adheres to its motto of ***Passion, Integrity, and Dedication*** for every client on every project.
